

**UCLA Lot 38**      **10889 Wilshire Blvd.**  
**VISITOR PARKING INFORMATION**

*Welcome!*

Please read the following instructions to understand where to park and what elevators to use to access tenant floors in the Wilshire Glendon Building:

There are visitor parking spaces scattered throughout the levels of the garage as shown in the yellow on the right.

Every visitor to the building will be required to pull a parking ticket from the ticket dispenser upon entry to the parking garage. You will need to obtain a parking validation sticker, which must be affixed to the parking ticket and presented to the parking attendant upon exit of the garage. If you do not have a validated ticket or insufficient validation, you will be charged the posted parking rates.

Once parked, take one of the two available parking garage elevators to P-1, then walk up the stairs to the Main Lobby for access to the tower elevators. Visitors with mobility limitations should take the west elevator (located on the right if you are facing the entrance to the elevator lobby), which will give you direct access to the Main Lobby level.

From the elevator, walk directly to the building's Main Lobby and take the elevator to your destination floor.

Please remember to obtain a parking validation sticker so that your parking will be free of charge.

ADA parking is located on P-1 and P-3.
